

Speaker Introduction

**Janice Manson RN MN CH
Principal & Clinical Hypnotherapist**

**MindClick Partners Inc
West Vancouver, BC**

Life is change. Being able to flex, adapt and grow is critical to succeeding at getting what you want in life, be that more happiness, love, wealth, health, success or freedom. Getting what you want from life, be it business or personal, is largely due to your ability to successfully change your behaviours, attitudes, and habits in the right way and at the right time. You may be surprised to learn that hypnosis is one of the most effective ways today to achieve this – safely, easily, quickly and with lasting results.

Today, I present to you as our speaker, Janice Manson. Janice is a Registered Nurse, certified Clinical Hypnotist and the owner of MindClick Partners Inc.

MindClick was established in 2007 as a personal change and development organization focused on helping the client get 'unstuck' by helping reshape their mind for change and success. To that end, MindClick offers 1:1 hypnosis sessions, structured change programs, workshops and speaking events.

MindClick's typical clients are progressive individuals, businesses and community organizations who recognize the need to accelerate past self-imposed limitations to get the results they want.

Janice was educated in Nursing at the University of Manitoba (Baccalaureate of Nursing) and later at the University of Washington (Master of Nursing). Her career has spanned Clinical Nursing; Nursing Education; and Clinical Information Systems product development, consulting, sales and marketing. During her career, Janice has received numerous academic and sales awards. She has lived and worked in Canada, the USA and the UK.

Janice's hypnosis training has encompassed hundreds of hours in all three countries. Janice's specialized hypnosis training includes the 5-PATH® and 7th Path® Hypnosis methods; HypnoCoaching™, HypnoFertility™, Somatic Healing; Stage Hypnosis; Corporate Hypnosis; and Hypnosis for Pain Management. Applying the latest knowledge from neuroscience, medicine, nursing, psychology and business, Janice delivers effective hypnosis-based programs to achieve outstanding benefits for her corporate and individual clients.

Please welcome Janice.
